

CITY OF SPRINGFIELD  
INTER-OFFICE MEMORANDUM

ATTENTION OF \_\_\_\_\_ FILE \_\_\_\_\_  
DEPARTMENT \_\_\_\_\_

DATE February 25, 1981

On Monday, February 23, 1981, at approximately 10:30 p.m. I received a call on the pager about a cleaning fluid spill at Phillips Cleaners, 643 W. Sunshine. There was a 25 gallon drum of the cleaning fluid on a stand behind Phillips Cleaners and vandals apparently opened the spigot and drained it out onto the parking lot. When I arrived at the site of the spill, the Fire Department pumper truck had just finished flushing it. It is unknown how much cleaning fluid was actually spilled. The spilled material soaked into the gravel and into the soil behind the parking lot. I called the City's sawdust truck to spread sawdust on the lot to hasten the drying of the spilled material.
